B.4. FURTHER INFORMATION

B.4.1. SAFETY INTERVALS AND OTHER PRECAUTIONS TO PROTECT HUMANS, ANIMALS AND THE ENVIRONMENT

B.4.1.1 Pre-harvest interval (in days) for each relevant crop

No Pre-Harvest interval is necessary.

B.4.1.2 Re-entry period (in days) for livestock, to areas to be grazed

No Re-entry period for livestock is necessary

B.4.1.3 Re-entry period (in hours or days) for man to crops, buildings or spaces treated

No Re-entry period for man is necessary

B.4.1.4 Withholding period (in days) for animal feeding stuffs

No withholding for animal feeding stuffs is necessary.

B.4.1.5 Waiting period (in days) between application and handling of treated products.

No waiting period between application and handling of treated product is necessary.

B.4.1.6 Waiting period (in days) between last application and sowing or planting succeeding crops.

No waiting period between last application and sowing or planting succeeding crops is necessary.

B.4.1.7 Information on specific conditions under which the preparation may or may not be used.

There are no specific conditions under which applications may not be applied

B.4.2. RECOMMENDED METHODS AND PRECAUTIONS

Store only in the original container. Store the containers sealed, in a well-ventilated place, away from direct sunlight. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

In the event of fire, conventional extinguishing equipment can be used (carbon dioxide, foam, powder and water spray). Do not breathe combustion products. Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

B.4.3. EMERGENCY MEASURES IN CASE OF AN ACCIDENT

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. If problem persists, seek medical advice.

SKIN: Remove contaminated clothing. Wash immediately with plenty of water. If irritation persists, get medical advice/attention. Wash contaminated clothing before using it again.

INHALATION: Remove to open air. In the event of breathing difficulties, get medical advice/attention immediately.

INGESTION: Get medical advice/attention. Induce vomiting only if indicated by the doctor. Never give anything by mouth to an unconscious person, unless authorised by a doctor.

B.4.4. PACKAGING, COMPATIBILITY OF THE PLANT PROTECTION PRODUCT WITH PROPOSED PACKAGING MATERIALS

Final Bite® will be available in two different packaging's on the market. One will be a 500gram bag and the other one a 15-kilograms bag. Below the detailed characteristics of each of them.

Final Bite® 0.5Kg Bag

- Multi layer Polyethylene terephthalate + polyethylene bag.
- **Food Contact:** In accordance with CEE and FDA norms.
- **Nominal Thickness:** 87 microns \pm 3%
- Nominal basis weight m²: 86.30 m²

Final Bite® 15Kg Bag:

- Polyethylene bag.
- According to suppliers' statements, the raw materials used in the production of this product are suitable for use in the food industry.
- Thickness: 150 microns \pm 8% (according to IN556)
- Closed width: 38 cm \pm 10 mm (according to IN 556)
- Open width: 48 cm \pm 10 mm (according to IN 556)
- Length: 75 cm \pm 10 mm (according to IN 556)

B.4.5. PROCEDURES FOR DESTRUCTION OR DECONTAMINATION OF THE PLANT PROTECTION PRODUCT AND ITS PACKAGING**B.4.5.1. Neutralisation procedure**

Not relevant, the product is a low risk product thus no neutralisation procedures are necessary. As the product is a ready-to-use granular bait, in case of spillage, remove the product and follow the procedure to dispose the product (CP 4.5.2).

B.4.5.2. Controlled incineration

Controlled incineration is the preferred means to safely dispose of the preparation, contaminated materials or packaging. Incineration must be done under controlled conditions according to the EEC Directive 94/67.
